
August Art top 10 to do

Jane - 28 July 2016

As we break for the month of August I thought a little arty homework could be in order!

1. Set up a still life - choose your objects carefully. They should be different colours, shapes and sizes. Start with 3, then 6. Think about the background and foreground, where the light comes from. Do drawings then paint - lesson plan available for this
2. Make your own colour charts and a little colour chart book: cut up sheets of watercolour paper, punch holes in the sides, take some ribbon and you have a little book. Take two colours: paint one colour on each side of the page and then gradually add one colour to the other meeting in the middle. (you will need to rinse the brush accordingly). Do a line below with white added in the same way. Important: write down the names of the colours! Bring to September classes
3. Start a sketchbook and go sketching
4. Check out the Skyblue lesson plans and give them a go
5. buy new colours and an acrylic box (this is a type of lock lid palette with wells for paint in) it keeps it fresh. Available at Jacksons
6. Check out the library for art books, Worthing has a great selection
7. Visit Museums to see great artists, buy a postcard to make you remember
8. Paint coloured backgrounds and then paint on top
9. Paint from your favourite artist
10. Draw in black and white
